EMPLOYMENT PHYSICAL AND DRUG TESTING**

All individuals conditionally accepted for employment with Green County are required to submit to a physical examination and drug test, and for some positions a tuberculin test, prior to commencement of employment. The examination and testing shall be made by a medical facility and physician selected by the Personnel and Labor Relations Committee of the County Board and shall be at County expense.

You will be notified by Green County as to the date, time and place of your physical examination and drug and/or tuberculin test. Please be prompt for the appointment.

GREEN COUNTY IS AN EQUAL OPPORTUNITY EMPLOYER

**GREEN COUNTY DRUG TESTING POLICY STATEMENT**

Green County recognizes the problem of substance abuse in today’s society. The problem of alcohol and drug abuse and misuse represents a great potential for health, safety and security problems. This problem is of particular concern to Green County, who is subject to extensive governmental regulations and owes a special duty of care to its constituents, residents and visitors. Not only does a substance abuse-impaired employee jeopardize his/her own health and well-being, but also that of every person he/she comes into contact with at work or in the public. Therefore, a strong affirmative approach to dealing with drug and alcohol abuse is dictated.

Green County expects its employees to assist in maintaining a drug-free work environment that is free from the use and effects of alcohol, drugs and other mood-altering substances. Green County prohibits employees from the unlawful manufacture, distribution, dispensation, possession or use of controlled substances in the work place.

In order to make Green County roads, work places and environments safer, Green County has established procedures which will require new prospective employees who apply for consideration for a position with Green County to be tested for the use of controlled substances including Amphetamines, Barbiturates, Benzodiazepine, Cannabis, Cocaine, Methadone, Methaqualone, Opiate, Phencyclidine (angel dust) and Propoxphene, as part of the pre-employment and qualification medical examination.

Positive test results, which shall be confirmed by back-up test, will be considered in employment decisions and may result in a decision that the applicant is medically unqualified for employment.

I have read and understand the Green County policy concerning drug and alcohol abuse and agree to comply with this policy.

**GREEN COUNTY PRE-EMPLOYMENT DRUG/ALCOHOL SCREENING**  
**PARTICIPANT'S INSTRUCTIONS SPECIMEN COLLECTION PROTOCOL**

Your Prospective Employer Requires That You Submit A Urine Specimen For Drugs Of Abuse/Alcohol Testing. If You Are Unwilling To Participate In This Test, Advise A Staff Person Of This Facility Now.

If you cannot produce a fresh specimen at this time, drink fluids now and you will be routed by the medical staff to another part of your exam until a later time.

In order to assure the identity and integrity of the specimen, this protocol must be followed carefully:

1. Please present photo identification.
2. Wash your hands in view of the staff person.
3. In the privacy of a restroom, urinate directly into the specimen container provided. Do not flush the toilet or run the water until you return your specimen to the staff person.
4. Return the container directly to the hands of the staff person and stay with him/her until the specimen is completely sealed and labeled.
5. The staff person will divide the specimen into two containers and seal each with tamper-evident seals.
6. The staff person will place your specimen identification number on each container.
7. Please place your initials and social security number or employee number on each container.
8. Complete the participant's section of the form: List all drugs that you have taken in the last 30 days. Enter your prospective employer's name. Print and sign your name which gives the certified laboratory permission to do the test and release the results to the medical review officer. You are also verifying that you witnessed your specimen being divided, sealed and marked with the specimen ID number which matches your consent form.
9. After the containers are sealed in the tamper-evident bag, put your initials in the place designated.

\* The designated certified laboratory uses one of the most reliable and commonly used techniques to screen specimens for substances of abuse. When a specimen tests positive, a new sample is taken from the original specimen and tested with a chemically different, more specific method. Only specimens testing positive on both tests are reported as "positive". Specimens confirming positive are retained for an extended period.
